[Support - L.O.V.E. Locals
for Opportunity and Value
in Education \(anedot.com\)](http://www.anedot.com)

Help us put people with common
sense into the positions that are
making the decisions concerning
the education of our children.
Instead of arguing with the au-
thority, we want to put good peo-
ple in authority.

in
E. Education

Education is the foundation for improving
and preserving our country and way of
life!

Help us achieve this for our children by
electing individuals to fundamentally
change and then maintain our Douglas
County School Boards to reflect a moral,
classical, fact-based and constitutional
approach to educating our children.

*Locals for Opportunity
and Value in Education*

Save Our Schools—SOS

What are we trying to accomplish?

Educate the children in Douglas County with foundational curriculum. Prepare the students to be productive adults! Children need structure, not confusion. SOS is passionate about children succeeding without grooming or indoctrination.

How do we get there?

Identify sensible school board candidates, support them and put these good people with courage and moral fiber in the positions that will be making decisions.

Then what?

We will support policy and curriculum that teaches reading, writing, arithmetic and fact based history. This curriculum will have a very generic ideology, but will not have the grooming and indoctrination of the progressive left. It will not include sexualization or gender confusion or other agendas that are not appropriate for public education. It will include educating our children to understand the obligation and significance of American citizenship

L.O.V.E. Political Action Committee

Locals for Opportunity and Value in Education or L.O.V.E., the political action committee, was created to support candidates with campaign expenses such as yard signs, print materials and tools to reach the voters and be successful board members.

We have paid our taxes and have the right to have our children educated without any biased ideology pushed on them. We want our children to be armed with the truth so they can be ready to face life. The state does not have the constitutional right to push its own form of liberal ideology on us through a curriculum that is brainwashing our children and then forcing it on us by pulling our funding.

How can you help?

Support the PAC with your donation and consider attending a Save Our Schools meeting and getting involved. Please contact saveourschoolsor@gmail.com for meeting times and places.

Parents must be involved in any curriculum or life altering decisions.
